

MOTOTRBO DM2600 ACCESSORIES

UNLEASH THE POWER OF YOUR MOBILE RADIO

You know MOTOTRBO™ radios can put the power of digital communications within reach. They combine the best of two-way functionality with the latest digital technology to bring you all the benefits you seek. Excellent coverage. Double the capacity. Exceptional audio quality and clarity.

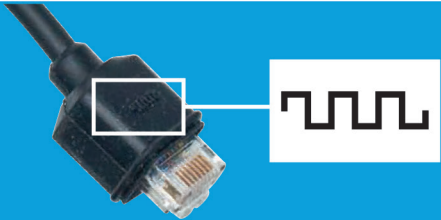

And while you realise MOTOTRBO is best in class, to help you work best, you need accessories that truly fit your work environment. That's why it's important to use Motorola Original® accessories with your DM2600 mobile radio. They're the only ones designed, certified and approved to optimise the performance of your radio.

Only Motorola accessories unleash the full power of MOTOTRBO – the most advanced digital radio platform in the industry. Whether you're looking for advanced features to ensure you are heard loud and clear or to communicate without distraction in a vehicle, our accessories can help you achieve even greater productivity and safety. **Together, you'll rethink what's an accessory – and what's a necessity.**

STAY IN TOUCH AND ON TRACK WITH YOUR TEAMS

OPTIMISED FOR DIGITAL

Make sure to only use Motorola audio accessories with this digital symbol, it indicates these accessories have been optimised for performance in both digital and analogue mode. All accessories with this symbol have been certified and approved for DM2600 mobile radios.

MOBILE MICROPHONES

Find the right microphone for the way you work – whether you’re delivering packages around town or transporting passengers.

Choose from four different styles:

Compact microphones fit comfortably in your hand for quick, convenient communication

Keypad microphones let you easily navigate menus on your radio, dial numbers and more

Heavy-duty microphones are ruggedised and easy to use while wearing gloves

Telephone-style handset lets you communicate more discreetly, so others can’t listen in on your conversation

PERFORMANCE THAT SPEAKS FOR ITSELF

MOBILE MICROPHONES

PMMN4090	Compact Microphone
PMMN4091	Heavy Duty Microphone
PMMN4089	Keypad Microphone
GMMN4065	Visor Microphone

PMLN6481	Telephone Style Handset with hang-up cup
HLN9073	Microphone Hang-up Clip (requires installation)

SAY GOODBYE TO DISTRACTING NOISE WITH INTELLIGENT AUDIO

Does road noise, rush-hour traffic, heavy equipment, diesel engines and other loud sounds compete with your communication? The Intelligent Audio feature makes adjusting your radio volume to handle external noise a thing of the past.

Intelligent Audio listens to sounds in the background and automatically raises or lowers your radio volume so you can always hear clearly. If you’re driving an empty bus that quickly fills with chattering children – you will still be able to hear important communication without taking your hands off the wheel to adjust the radio volume.

VEHICLE SOLUTIONS

Communicate safely with these essential vehicle solutions, wherever the work takes you – from the tram or bus to the short-haul delivery truck.

Clip the **visor microphone** to your vehicle’s sun visor, so you don’t have to hold a microphone. Combine it with one of our remote push-to-talk options; a **pushbutton** mounted on the steering wheel, a flexible gooseneck within easy reach or a **footswitch** mounted on the floor, to provide a complete hands free communication solution.

KEEP YOUR EYES ON THE ROAD
AND YOUR HANDS ON THE WHEEL

VEHICLE PUSH-TO-TALKS

RLN4836	Emergency Footswitch
RLN4858	Gooseneck Push-To-Talk
RLN4857	Remote Mount Pushbutton Push-To-Talk
